

PRISM Implementation Status

PRISM Implementation Summary

Expanded PRISM

- State meets all 12 PRISM implementation requirements
- Requirements are implemented by CMV registration agencies
- Focus on non-IRP vehicles or weighted between 10,001 to 26,000 lbs

Enhanced Participation

PRISM Implementation Requirements 7-12

- 7.** Legislative or administrative authority to deny registration for reincarnated carriers

- 8.** Check VIN against PRISM Target data for OOS affiliation

- 9.** Implement a process to identify a reincarnated carrier

- 10.** Deny registration for reincarnated carriers or request VIN removal from PRISM Target data

- 11.** Set 950 status codes to suspend vehicles in SAFER

- 12.** Certify PRISM cab card barcode

Full Participation

PRISM Implementation Requirements 1-6

- 1.** Legislative or administrative authority to deny/suspend for carriers under Federal OOS

- 2.** Collect/validate USDOT and TIN number of MCRS

- 3.** Check OOS status before registration (Deny)

- 4.** Check OOS status daily during registration (Suspend)

- 5.** Upload vehicle registration information to SAFER

- 6.** Report quarterly denials and suspensions

Partial Participation

- State does not meet all Full Participation requirements

Optional Program Enhancements

- ◇ Use real-time PRISM Web Services in addition to the daily Target and/or Census file(s) for registration application
- * Retrieve license plates from motor carriers whose registration has been suspended due to Federal OOS order
